

GLOBAL PAWS

We are a professional and caring pet transport company that will relocate your beloved family pets to your new home, either to another country or another city within South Africa.

We will manage all your pets' flights, guide you through veterinary requirements and prepare your pet's travel documentation. All our collections and deliveries are done in our branded, airconditioned vehicles. We also offer kennelling services, unique Traveller Comfort Pack products and more.

Home is where your Pet is...

Every decision we make is based on this statement as we believe that a pet completes a family. Reunion with beloved furry friends is a very emotional and rewarding event for both the pet and its family.

We are, and will always be, happy to take part in this unique experience.
